**Opening**

**A. Homework Review and Engaging the Writer (12 minutes)**

- Ask students to take out their homework: Unit 3, Lesson 9.
- Return their completed **Storyboard, Section 1: The Traffic Signal** or **Storyboard, Section 1: The Airplane**.
- Direct students to find a partner who is not studying the same invention.
- Review the Peer Critique protocol and clarify any directions as needed.
- Give students 6 or 7 minutes to complete the following with their partners:
  1. Partner A shares his or her Storyboard, Section 1 and entry ticket reflections with Partner B.
  2. Partner B provides specific and positive praise and suggestions to Partner A about his or her Storyboard, Section 1.
  3. Partner B shares her or his Storyboard, Section 1 and entry ticket reflections.
  4. Partner A provides specific and positive praise and suggestions to Partner B about her or his Storyboard, Section 1.
- Once partners have shared and discussed their storyboards, invite students to briefly revise their Storyboard, Section 1, based on the peer critique.
- After 2 or 3 minutes, invite a few students to share out how they revised their storyboards based on peer feedback.
- Explain that today students will take Part II of the end of unit assessment, which asks them to demonstrate what they have learned about creating storyboards that summarize information about the inventor’s background and process for developing the invention. Tell students they will also be able to infuse visual elements into their storyboards to support readers’ understanding of key ideas.

**Meeting Students’ Needs**

- Some students will not be able to make minor changes in 2 or 3 minutes due to physical restrictions. Consider allowing partners to write up the feedback for students to take with them into Work Time.
- To provide all students access to the learning target prompt, display a sentence starter: “I met the (first, second, third) target with my Philo storyboard when I______.”
# B. Introduction of Learning Targets (3 minutes)

- Invite students to read each of the learning targets aloud together:
  - “I can summarize information about the inventor’s background in the caption box of my Storyboard, Section 2.”
  - “I can summarize information about the process for developing an invention in the caption box of my Storyboard, Section 3.”
  - “I can support readers’ understanding of the key ideas on my storyboards by adding visual elements that emphasize important details.”

- Ask students to consider and then discuss with partners:
  - “How did you meet these targets when you created storyboards about Philo Farnsworth’s background and process for developing television?”

- After 1 minute, invite a few students to share their thinking whole group. Listen for ideas such as:
  - “For Section 2 of our storyboards about Philo’s invention of TV, we highlighted and summarized notes from the ‘Background information about the INVENTOR’ boxes on our note-catchers.”
  - “For Section 3 of our storyboards about Philo’s invention of television, we highlighted and summarized notes from the ‘Information about developing a SOLUTION’ boxes on our note-catchers.”
  - “We made quick sketches of different types of visual elements on our storyboards to support readers’ comprehension of important ideas.”

- Briefly explain that during Work Time A, students will create Storyboard, Section 2 to summarize and visually express important background information about either Garrett Morgan or the Wright brothers. In Work Time B, they will create Storyboard, Section 3 to summarize and visually express important information about the process either the Wright brothers or Garrett Morgan used to develop their invention.
### A. End of Unit Assessment, Part II, A: Storyboard, Section 2 (20 minutes)
- Help students gather their resources from Lessons 2–5:
- Once they have what they need, distribute these materials to each student:
  - End of Unit Assessment, Part II, A: Storyboard, Section 2: Directions and Criteria for Success
  - Storyboard, Section 2: The Traffic Signal (to students in traffic signal expert groups)
  - Storyboard, Section 2: The Airplane (to students in airplane expert groups)
  - One pink highlighter
- Read the directions and criteria for success from End of Unit Assessment, Part II, A, aloud and provide clarification as needed.
- Tell students they may also refer to the Storyboard, Section 1–4 Charts: The Television created during Lessons 6–8 and the Linking Words anchor chart as needed for support during the assessment. Ask students to begin.
- Give them 15 minutes to complete their storyboards.
- Circulate to supervise; since this is a formal on-demand assessment, do not provide support other than formally approved accommodations.
- Once students have completed their storyboards, ask them to hold on to them for the debrief at the end of the lesson.

### Meeting Students’ Needs
- Consider providing extra time for tasks and answering questions in class discussions. Some students need more time to process and translate information.
- ELLs receive extended time as an accommodation on New York State assessments.

### Closing and Assessment

**A. Debrief and Review of Learning Targets (5 minutes)**
- Ask students to discuss with a nearby partner:
  
  * “What types of visual elements did you include on your storyboards to support readers’ understanding of important ideas?”

- After 1 or 2 minutes, invite a few students to share an example of a visual element their partner added to her or his storyboards that was particularly useful for supporting readers’ understanding of the key ideas.

- Collect students’ Storyboards, Sections 2 and 3, to review and assess (see Teaching Note below).

- Remind students that they will not formally reflect on their progress toward the targets until they complete all their storyboards. However, they will informally consider their individual mastery of today’s learning targets.

- Invite students to read each target aloud together and demonstrate the level of mastery they feel toward individual targets using Glass, Bugs, Mud.

- Distribute the **Homework: Unit 3, Lesson 10** to each student.

### Meeting Students’ Needs

- To give all students access to the debrief prompt, display a sentence starter: “The visual elements I included in my storyboard were______.”

### Homework

- Complete your Homework: Unit 3, Lesson 10.

- Read your independent reading book for at least 30 minutes and then respond to one of the questions on your **Independent Reading Choice Board**.

### Notes

*Consider making copies of students’ Storyboards, Sections 2 and 3, for them to refer to as they complete the homework assignment. They will also need the storyboards for a peer critique session during the Opening of Lesson 11. Make copies of their storyboards to review and assess (using the criteria for success) so you are able to return their original storyboards at the beginning of the next lesson.*

*Remember to thoroughly review Lessons 14–16 to determine whether you will have students use Option A, the technology (W.5.6) option for creating graphic novelettes, or Option B, which does not require the use of technology. Begin planning for the delivery of those lessons (see Teaching Note in Lesson 9 for more details).*
