Grade 7: Module 1: Unit 1
Overview
In this first unit, students will explore the question: “How do culture, time, and place influence the development of identity?” Through a study of the development of character in the novel *A Long Walk to Water*, students will immerse themselves in the experiences of the people of Southern Sudan during the Sudanese Civil War. In this unit, students will read the first five chapters of the novel, discovering the differing perspectives of the novel’s two main characters and considering the different experiences of the Dinka and Nuer tribes of Southern Sudan. Students will then explore informational texts that describe the cultures of the Dinka and the Nuer. Students will identify textual evidence that supports the differing perspectives of the novel’s characters and the Sudanese people, and do routine writing tasks to analyze and explain that evidence. (This will lay the foundation for a rich performance task in Unit 3 in which students synthesize their understanding of character point of view in a two-voice poem.) Throughout this unit, students build their ability to read closely and to analyze textual evidence in writing. This unit also introduces important discussion protocols that help students collaborate effectively during discussions. For the Mid-Unit and End of Unit Assessments in Unit 1, students will demonstrate their abilities to gather textual evidence that highlights the different perspectives from their readings.

**Guiding Questions And Big Ideas**

- How do individuals survive in challenging environments?
- How do culture, time, and place influence the development of identity?
- How does reading different texts about the same topic build our understanding?
- How do writers use narrative techniques to convey characters’ perspectives?
- Individual survival in challenging environments requires both physical and emotional resources.
- Using informational writing about a historical time, place, or people enriches our understanding of a fictional portrayal of the same time period or events.

<tr>
<td>Mid-Unit 1 Assessment</td>
<td>Identifying Perspective and Using Evidence from A Long Walk to Water</td>
<td>This assessment centers on standards NYS ELA CCLA RL.7.1 and RL.7.6. Students will complete a graphic organizer in which they gather and make inferences from textual evidence about the differences in perspective of Nya and Salva in <em>A Long Walk to Water</em>. Students will also respond to an Evidence-Based Selected Response item to further demonstrate their progress with analyzing text. This is a reading assessment: the purpose is for students to demonstrate their ability to cite textual evidence that articulates a character’s perspective in a text, specifically in regard to how the plot unfolds and how a character responds to change. This assessment is not meant to formally assess students’ writing. Most students will write their responses in the graphic organizer, in which case it may also be appropriate to assess students on W.7.9. However, if necessary, students may dictate their answers to an adult.</td>

<tr>
<td>End of Unit 1 Assessment</td>
<td>Identifying Perspective and Using Evidence from Informational Texts about the Dinka and Nuer Tribes</td>
<td>This assessment centers on standard NYSP12 ELA CCLS RI.7.1, W.7.4, and W.7.9. Students will complete a graphic organizer in which they gather and make inferences from textual evidence about the differences in perspective of the Dinka and the Nuer in Sudan from informational text. This is a reading assessment: the purpose is for students to demonstrate their ability to cite textual evidence that articulates perspective in an informational text, specifically in regard to how history and culture affect social identity. Students will then respond to a short constructed-response question, “What is one important way that place shapes the identity of the Dinka and/or Nuer tribes?” This is also a writing assessment: the purpose is for students to demonstrate their growing ability to use textual evidence to support analysis.</td>

Content Connections

This module is designed to address English Language Arts standards within the rich context of the Sudanese Civil War. However, the module intentionally incorporates Social Studies key ideas and themes to support potential interdisciplinary connections. These intentional connections are described below.

Big Ideas and Guiding Questions are informed by the New York State Common Core K-8 Social Studies Framework:

Unifying Themes (pages 6–7)
- Theme 1: Individual Development and Cultural Identity: The role of social, political, and cultural interactions supports the development of identity. Personal identity is a function of an individual’s culture, time, place, geography, interaction with groups, influences from institutions, and lived experiences.
- Theme 4: Geography, Humans, and the Environment: The relationship between human populations and the physical world (people, places, and environments).

Social Studies Practices, Geographic Reasoning, Grades 5–8:
- Descriptor 2: Describe the relationships between people and environments and the connections between people and places (page 58).

Central Texts

This unit is approximately 3 weeks or 14 sessions of instruction.

- **Fieldwork:** N/A
- **Service:** Coordinate a local refugee center to inquire about service opportunities.

**Optional: Extensions**

- **Social Studies teachers** may complement this unit with a focus on similar Guiding Questions, which were developed from the NYS Social Studies Core Curriculum; see Guiding Questions above.
- **Science teachers** may directly connect with this unit with a focus on science Disciplinary Core Idea LS2.A: Interdependent Relationships in Ecosystems, as written in *A Framework for K-12 Science Education: Practices, Crosscutting Concepts, and Core Ideas*. Science teachers could use the Sudanese environment as a case study for analysis of interdependence in a particular biome.

**Preparation and Materials**

- Throughout this unit, students collaborate with peers. A specific structure for rotating partnerships is suggested; feel free to use an alternate system. The goal is to ensure that across these lessons, students interact with a range of diverse partners as they build their ability to collaborate effectively. This relates directly to SL.7.1
- **Note:** Lesson 8 = Assessment: random or assessment-based seating; Lesson 9 = World Café protocol: mixed seating; Lesson 14 = Assessment: random or assessment-based seating.
