Planning instruction with the Assessment and Remediation Guide is guided by:

- observation of student performance during instruction from the Kindergarten Teacher’s Guide lessons.
- student scores on performance assessments throughout the Kindergarten units.
- progress monitoring assessments from the Assessment and Remediation Guide.

**Step 1:** Use the Cross Reference charts and Determining Student Need flow charts provided for each component (i.e., Phonological Awareness, Phonics, and Writing) within the unit. The Cross Reference chart helps you consider student performance across the lessons and with any Pause Points utilized. Instructional activities are organized by unit objectives. Therefore, if students struggled significantly with activities from particular rows of the chart, the unit objective to target is indicated in the first column. The Determining Student Need flow chart prompts you to additionally consider student assessment performance.

**Step 2:** If a need for remediation is indicated, refer to the Kindergarten Skills Scope and Sequence (provided in the Kindergarten Assessment and Remediation Guide Introduction) to consider whether remedial instruction may need to begin at an earlier unit.

**Step 3:** Consider students’ Level of Instructional Need. A description of the three Levels of Instructional Need is provided in the Kindergarten Assessment and Remediation Guide Introduction. Establishing a level of instructional need will direct you to a corresponding lesson structure provided at the beginning of each unit.

**Step 4:** Select exercises and assessments and prepare associated materials for instruction and progress monitoring.

**Step 5:** Use ongoing evaluation of student instructional performance and progress monitoring to facilitate decisions about student progress or ongoing remediation needs.

Thoughtful observation of daily performance, integration of assessment with instruction, and provision of target remediation as quickly as possible will help most struggling Kindergarten students become successful Kindergarten students!
Lesson Structures for Levels of Instructional Need

The Kindergarten Assessment and Remediation Guide will serve students who:

- may enter Kindergarten with known literacy skill educational needs requiring instruction beyond the Skills strand Teacher Guide lessons.
- may have significant instructional needs identified by the student performance assessments throughout the Kindergarten units.
- may complete some Kindergarten units yet demonstrate a lack of preparedness for subsequent units.
- Depending on the severity of student instructional need, instructional personnel available, and student grouping options, materials from the Kindergarten Assessment and Remediation Guide may be used for:
  - guided reinforcement
  - explicit reteaching
  - comprehensive reteaching

The Lesson Templates within each section provide a detailed model the sequence of instructional steps to be followed when reteaching the particular skill(s) targeted in that section. The Lesson Templates are followed by a Sample Remedial Lesson illustrating how specific skill work, activities, and progress monitoring can be applied to the template. The following Lesson Structures illustrate how the Lesson Templates and Sample Remedial Lessons from each section align to the Explicit Reteaching structure and provide guidance for how to make more abbreviated (Guided Reinforcement Structure) or more complete (Comprehensive Reteaching Structure) use of the Lesson Templates and Sample Remedial Lessons from each section.
Guided Reinforcement Lesson Structure

The Guided Reinforcement Lesson Structure provides guidance for how to use only the supported practice elements from the Lesson Templates. This structure provides an abbreviated lesson geared for reinforcing developing skills not yet mastered.

<table>
<thead>
<tr>
<th>Guided Reinforcement</th>
<th>Exercise</th>
<th>Materials</th>
<th>Minutes</th>
</tr>
</thead>
</table>
| **Warm-Up**           | See corresponding section Lesson Templates for Warm-Up activity descriptions.  
  - For Phonological Awareness: Phonemes (two or three): Thumbs-Up Review  
  - For Phonics: Match Me  
  - For Writing: Lowercase Letter Formation: Handwriting Warm-Up | Activity Dependent | 3 |
| **Guided Practice**   | See corresponding sections to choose one or two activities from Worksheets, Games, or Poems/Songs/Nursery Rhymes for instruction related to remedial targets within:  
  - Phonological Awareness: Phonemes (two or three)  
  - Phonics  
  - Writing: Lowercase Letter Formation | Activity Dependent | 12 |

**Note:** Progress monitoring related to instruction from Guided Reinforcement lessons may be integrated within instructional times other than these brief remedial lessons, or remedial instructional time may be devoted to completed progress monitoring as needed.
## Explicit Reteaching Lesson Structure

The Explicit Reteaching Lesson Structure aligns with the Lesson Templates. This structure provides a more complete lesson geared for explicit instruction for selected unit objectives.

<table>
<thead>
<tr>
<th>Explicit Reteaching</th>
<th>Exercise</th>
<th>Materials</th>
<th>Minutes</th>
</tr>
</thead>
</table>
| **Warm-Up**         | See corresponding section Lesson Templates for Warm-Up activity descriptions.  
  • **For Phonological Awareness: Phonemes (two or three):** Thumbs-Up Review  
  • **For Phonics:** Match Me  
  • **For Writing: Lowercase Letter Formation:** Handwriting Warm-Up | Activity Dependent | 3 |
| **Explicit Instruction** | See corresponding section Lesson Templates for Learning About… activity descriptions.  
  • **For Phonological Awareness: Phonemes (two or three):** Sound Boxes  
  • **For Phonics:** Review the Sound/Spelling  
  • **For Writing: Lowercase Letter Formation:** Learning About Lowercase Letter Formation | Activity Dependent | 4 |
| **Guided Practice (working with skills)** | See corresponding section Lesson Templates for Working With… activity descriptions.  
  • **For Phonological Awareness: Phonemes (two or three):** Sound Boxes cont.  
  • **For Phonics:** Chaining  
  • **For Writing: Lowercase Letter Formation:** Working with Lowercase Letter Formation | Activity Dependent | 10 |
| **Guided Practice (applying skills) OR Independent Practice/Progress Monitoring** | See corresponding sections to choose one or two activities from Worksheets, Games, or Poems/Songs/Nursery Rhymes for instruction related to remedial targets within:  
  • **Phonological Awareness: Phonemes (two or three)**  
  • **Phonics**  
  • **Writing: Lowercase Letter Formation**  
Activities with which students have demonstrated independence may engage students when progress monitoring with individuals is needed. | Activity Dependent | 8 |
**Comprehensive Reteaching Lesson Structure**

The Comprehensive Reteaching Lesson Structure also aligns with the Lesson Templates. This structure provides a more instructional time allowing for integration of activities from multiple sections when multiple unit objectives are targets for remediation.

<table>
<thead>
<tr>
<th>Comprehensive Reteaching</th>
<th>Exercise</th>
<th>Materials</th>
<th>Minutes</th>
</tr>
</thead>
</table>
| **Warm-Up**              | See corresponding section Lesson Templates for Warm-Up activity descriptions.  
- **For Phonological Awareness: Phonemes (two or three):** Thumbs-Up Review  
- **For Phonics:** Match Me  
- **For Writing: Lowercase Letter Formation:** Handwriting Warm-Up | Activity Dependent | 3 |
| **Explicit Instruction** | See corresponding section Lesson Templates for Learning About... activity descriptions.  
- **For Phonological Awareness: Phonemes (two or three):** Sound Boxes  
- **For Phonics:** Review the Sound/Spelling  
- **For Writing: Lowercase Letter Formation:** Learning About Lowercase Letter Formation | Activity Dependent | 5 |
| **Guided Practice**      | See corresponding section Lesson Templates for Working With... activity descriptions.  
- **For Phonological Awareness: Phonemes (two or three):** Sound Boxes cont.  
- **For Phonics:** Chaining  
- **For Writing: Lowercase Letter Formation:** Working with Lowercase Letter Formation | Activity Dependent | 10 |
| **Guided Practice**      | See corresponding sections to choose one or two activities from Worksheets, Games, or Poems/Songs/Nursery Rhymes for instruction related to remedial targets within:  
- **Phonological Awareness: Phonemes (two or three)**  
- **Phonics**  
- **Writing: Lowercase Letter Formation** | Activity Dependent | 12 |
| **Independent Practice/Progress Monitoring** | Activities with which students have demonstrated independence may engage students when progress monitoring with individuals is needed. | Activity Dependent  
- Progress Monitoring Resources | 10 |
**Note:** If a single remedial instruction session does not allow enough time to complete the Comprehensive Reteaching Lesson, then the instruction can be divided over two instructional sessions instead. A split lesson structure may look like this:

<table>
<thead>
<tr>
<th>Session 1</th>
<th>Session 2</th>
</tr>
</thead>
<tbody>
<tr>
<td>Warm-Up</td>
<td>Warm-Up</td>
</tr>
<tr>
<td>Explicit Instruction</td>
<td>Explicit Instruction</td>
</tr>
<tr>
<td>Guided Practice (working with skills)</td>
<td>Continue Guided Practice (applying skills)</td>
</tr>
<tr>
<td>Initiate Guided Practice (applying skills)</td>
<td>Independent Practice/Progress Monitoring</td>
</tr>
</tbody>
</table>

A single objective should be the primary focus of any given remedial instruction session. If you are using the Comprehensive Reteaching lesson structure and students are in need of explicit instruction related to multiple components (i.e., Phonological Awareness, Phonics, and Writing), then rotate the focus selected for Explicit Instruction and the related Guided Practice (working with skills) throughout a series of sessions. A rotating focus may look like this:

<table>
<thead>
<tr>
<th>Session 1</th>
<th>Session 2</th>
<th>Session 3</th>
<th>Session 4</th>
</tr>
</thead>
<tbody>
<tr>
<td>Warm-Up: Phonological Awareness focus</td>
<td>Warm-Up: Phonics focus</td>
<td>Warm-Up: Writing focus</td>
<td>Repeat Sequence</td>
</tr>
<tr>
<td>Explicit Instruction: Phonological Awareness focus</td>
<td>Explicit Instruction: Phonics focus</td>
<td>Explicit Instruction: Writing focus</td>
<td>(Perhaps the sessions focusing on phonological awareness and writing do not occur as frequently as the sessions focusing on phonics.)</td>
</tr>
<tr>
<td>Guided Practice (working with skills): Phonological Awareness focus</td>
<td>Guided Practice (working with skills): Phonics focus</td>
<td>Guided Practice (working with skills): Writing focus</td>
<td></td>
</tr>
<tr>
<td>Guided Practice (applying skills): Combination from component areas (e.g., a Phonological Awareness and a Phonics activity)</td>
<td>Guided Practice (applying skills): Combination from component areas (e.g., a Phonological Awareness and a Phonics activity)</td>
<td>Guided Practice (applying skills): Combination from component areas (e.g., a Phonics and a Writing activity)</td>
<td></td>
</tr>
<tr>
<td>Independent Practice/Progress Monitoring: Writing activity (observing for success independently)</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Guide Organization

Instruction from the Kindergarten Assessment and Remediation Guide will be most effective when used in either one-on-one or small group settings. Learning is optimized when instruction is facilitated by a teacher with expertise related to literacy instruction. Small teacher-to-student ratios maximize individual learning, particularly through increased opportunity for immediate (reinforcing or corrective) feedback for each student.

A description of the Basic and Advanced Code taught to students using CKLA materials starting in Kindergarten immediately follows this overview. This description will provide insight and context for how phonics skills are introduced in Kindergarten and taught throughout Grades 1 and 2.

This unit’s materials are organized into sections by component area (i.e., Phonological Awareness, Phonics, and Writing) and aligned with the objectives from the CKLA Skills strand units. Within the sections you will find:

- **Determining Student Need Chart**: A chart is supplied for your reference to determine student need for instruction from any given unit and section of the Assessment and Remediation Guide.

- **Lesson Template & Sample**: The Lesson Templates within each section provide a detailed model of the sequence of instructional steps to be followed when reteaching the particular skill(s) target in that section. The Lesson Templates are followed by a Sample Remedial Lesson illustrating how specific skill work, activities, and progress monitoring can be applied to the template. These Lesson Templates and Sample Lessons align with the Explicit Reteaching Lesson Structure described at the beginning of each unit. Guidance for how to adapt the Lesson Templates and Sample Lessons from each section for the Guided Reinforcement or Comprehensive Reteaching Lesson Structure is found at the beginning of each unit.

- **Lesson Reference Charts**: When applicable, reference charts are provided to help you adjust the difficulty of your lessons, ensuring students are appropriately scaffolded or challenged.

- **Dimensions of Difficulty**: This chart is provided for your use to accelerate or reduce the task difficulty for students.

- **Cross-Reference Charts**: The objectives for each section are cross referenced to the lessons and Pausing Points from the CKLA Skills Strand units. The alignment of objectives and activities can be seen at a glance, facilitating coordinated and target use of both the Skills strand units and the Assessment and Remediation Guide.

- **Word Lists**: Collections of words, phrases, or sentences needed for activities are provided. These lists are not intended to be exhaustive or restrictive. This resource is included to facilitate lesson preparation; however, teachers are welcome to use the lists as models for adding words, phrases, or sentences of their own.
- **Worksheets**: Worksheets may be utilized to facilitate modeling during Explicit Instruction, supervised practice and application of skills during Guided Practice, or reinforcement during Independent Practice.

- **Games/Activities**: Games and activities are provided inviting students to apply and strengthen the target skills.

- **Sentences & Stories for Oral Reading**: In later units, decodable Text is provided allowing students to practice the discrete skills taught and creating a bridge for the generalization of those skills to other forms of connected text.

- **Poems/Songs/Nursery Rhymes**: Poems, songs, and nursery rhymes foster students’ love of language. When applicable, related activities are included to provide engaging opportunities for students to play with sounds and words.

- **Progress Monitoring**: Resources for progress monitoring are included at the end of each section. These tools are intended to facilitate data collection to inform instruction and build a record of student’s progress.

- Progress Monitoring in Units 1 and 2 focuses on observing student application of skills during instructional practice rather than using specific measures with explicit criteria for identifying adequate or inadequate performance. This is purposeful. Though students who struggle with Unit 1 and Unit 2 objectives should receive related reteaching to bolster those skills, it is also important that they do not linger too long at these earliest steps. Kindergarten students need to move swiftly into the objectives of Unit 3 and beyond to have the opportunity to work with specific phonemes. In Unit 3 the Progress Monitoring changes to utilizing specific measures with criteria. Whereas students will have the opportunity to continue to develop Unit 1 and Unit 2 skills as they move forward, beginning with Unit 3, high levels of proficiency with the skills within the unit are required for success in subsequent units.
Section I
Phonological Awareness: Phonemes (Two or Three)
Determined Student Need for Section I, Phonological Awareness: Phonemes (Two or Three)

IF

A
Student struggles with Unit 3 Objective: Orally blend sounds to form words (two or three phonemes)
- Review with Pausing Point: Blend Two or Three Sounds to Form a Word
- If student meets expectations, then continue with Unit 3 Skills Strand Lessons
- If student continues to struggle

THEN USE
- Blending Boost! from Section I, Phonological Awareness: Phonemes (Two or Three)
  - If student meets expectations, then continue with Unit 3 Skills Strand Lessons
  - If student continues to struggle

B
Student struggles with Unit 3 Objective: Segment a spoken one-syllable short vowel word into phonemes
- Review with Pausing Point: Recognize and Isolate the Sounds Taught in Unit 3 and/or Differentiate Consonant and Vowel Sounds
- If student meets expectations, then continue with Unit 3 Skills Strand Lessons
- If student continues to struggle

C
Student struggles with Unit 3 Objective: Listen for phonemes in the initial and medial position of spoken one-syllable short vowel words (Includes listening to determine if phonemes are the same or different and isolating beginning sounds)
- Review with Pausing Point: Recognize and Isolate the Sounds Taught in Unit 3 and/or Differentiate Consonant and Vowel Sounds
- If student meets expectations, then continue with Unit 3 Skills Strand Lessons
- If student continues to struggle

D
Student scores 20 or less on Part Two of the Unit 3 Student Performance Task Assessment and/or performs poorly on other evaluations of blending, segmenting, isolating or recognizing the target phonemes for Unit 3
- Then, target specific areas of weakness by following track A, B, or C

THEN USE
- Section II (of Unit 2), Phonological Awareness: Phonemes (Two or Three)
**Blending Boost!**

Orally blending two or three phonemes is a primary focus of the activities in Unit 2, Section II of the *Assessment and Remediation Guide*. Unit 3 allows for continued development of this skill. It also provides progress monitoring assessments for evaluating students’ ability to apply blending with the target sound/spellings for Unit 3. The Blending Boost! activities may be done in isolation with students who need additional practice or may be incorporated into the Phonological Awareness Lesson Template for this section. A blending activity may be used instead of or in addition to the Thumbs-Up Review for the Warm-Up. If students demonstrate the need for more comprehensive instruction with oral blending, access additional resources in Unit 2, Section II of the *Assessment and Remediation Guide*.

**Find My Word**

Use Find My Word pages A–D to have students blend the phonemes to “Find My Word” (i.e., identify the objects) on the page.

- Provide students with a copy of the selected Find My Word worksheet.
- Review the names of the depicted items with students and see if they can identify the category for the page (animals, body parts, things in the sky, or vehicles).
- Pronounce the name of an object by saying the phonemes with a pause in between (e.g., /d/ [pause] /o/ [pause] /g/).
- Students blend the phonemes and point to the picture of the object.
- Repeat until all the pictures are identified.
- Encourage students to use the blending motions they have learned to help them blend the sounds.
- Option: Manipulatives can be used to cover pictures as they are identified.
- Variation: Students may practice segmenting phonemes by breaking apart the phonemes in names of the objects on the page themselves.

**Push & Say**

Use Sound Boxes to have students represent phonemes with objects.

- Provide the Sound Boxes page and a handful of small objects (e.g., cubes, tiles, beans, buttons, etc.) for each student.
- Students repeat the sounds and push an object into the boxes for each phoneme (from left to right). Then students run their finger under the boxes (from left to right) and blend the sounds to say the word. Tell students they may not always use every box, but they should always start with the first box on the left.
- Use this page along with your own word list (See Phonemes—Word Lists for suggestions.) or Find My Word pages.
**Note:** Though /x/ is a sound combination of /k/ and /s/ it is taught as one sound. You may praise students who recognize /x/ as a sound combination, but they are to treat it as one sound, placing one object in the box to represent the phoneme. Similarly, when /qu/ occurs in the initial position of words, praise students who recognize /qu/ as a sound combination of /k/ and /w/, but they are to represent the phoneme with one object in the corresponding box.
**Blending Motions for Two to Four Phonemes**

### Two-Phoneme Words (Hand Motion)

For lessons that target blending two-phoneme words, utilize the *gross motor* hand motions first applied to blending phonemes (as opposed to syllables) in Skills Strand Unit 2, Lesson 2. This motion prompts students to:

1. Hold your fists in front of you, palms facing down.
2. Flip over your left fist and open it as you say the first of two phonemes (e.g., /n/).
3. Flip over your right fist and open it as you say the second of two phonemes (e.g., /oe/).
4. Clap your hands as you say the whole word with the phonemes blended (e.g., *no*).

<p>| | | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>/n/</td>
<td>/oe/</td>
<td>no</td>
<td></td>
</tr>
</tbody>
</table>

### Three-Phoneme Words (Arm Motion)

For lessons that target blending three-phoneme words, utilize the *gross motor* hand motions first learned in Skills Strand Unit 2, Lesson 3. This motion prompts students to:

1. Hold your right arm in front of your body.
2. Touch your left shoulder as you say the first of three phonemes (e.g., /f/).
3. Touch your left elbow as you say the second of three phonemes (e.g., /u/).
4. Touch your left wrist as you say the third of three phonemes (e.g., /n/).
5. Slide your right hand from your left shoulder down to your left wrist as you say the whole word with the phonemes blended (e.g., *fun*).

<p>| | | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>/f/</td>
<td>/u/</td>
<td>/n/</td>
<td>fun</td>
</tr>
</tbody>
</table>
Two other variations for blending three-phoneme words are located in the Unit 2 Pausing Point section Blend Two or Three Sounds to Form a Word:

- Touch It!
- Clapping and Slapping Sounds

Two- to Four-Phoneme Words (Finger Motion)

Finger tapping is an option for students ready for fine motor movement. It is first described in Skills Strand Unit 2 Appendix A, and can be used when blending two- to four-phoneme words. This motion prompts students to:

1. Tap your pointing finger against your thumb as you say the first phoneme (e.g., /f/).
2. Tap your middle finger against your thumb as you say the second phoneme (e.g., /u/).
3. Tap your ring finger against your thumb as you say the third phoneme (e.g., /n/).
4. Tapping your pinkie finger against your thumb can be used if the word has a fourth phoneme.
5. Make a fist as you say the whole word with the phonemes blended (e.g., fun).

```
1 /f/  2 /u/  3 /n/  4 fun
```
## Phonemes—Word Lists

<table>
<thead>
<tr>
<th>Two-Phoneme Words</th>
<th>Three-Phoneme Words</th>
<th>Four-Phoneme Words (for challenge!)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Words from Skills Strand Unit 2 Lessons</strong></td>
<td><strong>Additional Words</strong></td>
<td><strong>Words from Skills Strand Unit 2 Lessons</strong></td>
</tr>
<tr>
<td>knee</td>
<td>me</td>
<td>no</td>
</tr>
</tbody>
</table>

If visual support is desired as a scaffold or required for activities such as blending to identify a picture, use words noted in **bold** (from Blending Picture Cards included as a Skills Strand resource) or **italic** (from Sound Cards included as a Skills Strand resource).
Directions: Pronounce the names of objects on the page in segmented fashion (pauses between phonemes). Students blend the sounds and point to the corresponding image. Images represent: cow, dog, duck, horse, bee, pig, cat, sheep, bird.

Find My Word A (Animals)
Find My Word B (Body Parts)

Directions: Pronounce the names of objects on the page in segmented fashion (pauses between phonemes). Students blend the sounds and point to the corresponding image. Images represent: head, nose, mouth, ear, chin, knee, foot, leg, thumb.
Find My Word C (Things in the Sky)

Directions: Pronounce the names of objects on the page in segmented fashion (pauses between phonemes). Students blend the sounds and point to the corresponding image. Images represent: sun, moon, star, rain, snow, kite, bird, bee, air.
Find My Word D (Vehicles)

Directions: Pronounce the names of objects on the page in segmented fashion (pauses between phonemes). Students blend the sounds and point to the corresponding image. Images represent: car, bus, van, cab, jeep, boat, jet, bike, sled.
Directions: Say two- or three-phoneme words in segmented fashion. Students repeat the sounds and push an object into the boxes for each phoneme (left to right). Then students run their finger under the boxes (left to right) and blend the sounds to say the word.
### Warm-Up

*Note: This Warm-Up is an extension of the Mirror, Mirror and Differentiate Consonant and Vowel Sounds activities from Unit 3 Lessons*

**Objective:** Prompt student attention to the articulation of target phonemes.

**Exercise:** Play Thumbs-Up Review. Using the Articulation Chart, ask students yes or no questions about the target phonemes (/m/, /a/, /t/, /d/, /o/, /k/, /g/, /i/). You may choose to complete a select review of specific phonemes with which students demonstrated difficulty or a mixed review of all the taught phonemes. You may want to model and discuss articulation information prior to playing the game, especially the first time when students may encounter questions about new information, such as voicing.

- Provide each student with a mirror.
- Tell students you will ask them questions about what they do to make the sounds they have learned.
- Before answering, encourage students to make the sound looking in the mirror and feeling their throat for voicing.
- Remind students not to shout out the answer. Instead, if the answer is “yes,” show it with a thumbs-up. If the answer is “no,” show it with a thumbs-down.
- A fun way to let students check their own answer is to hide the correct thumbs-up or thumbs-down behind a piece of paper and reveal it once everyone has decided on their answer.
- If anyone provided an incorrect answer, model the correct articulation and have students repeat after you. For example, if a student gave a thumbs-down for the question, “Can you stretch the sound for /a/?” then model holding the /a/ sound /aaaaaaaaaaaa/ and have students repeat.
- Continue with another question.

Keeping notes on the Articulation Chart regarding information mastered, progressing, or unfamiliar will help you formulate questions target to student need.

---

### Explicit Instruction

**Objective:** State the purpose for listening and model the desired performance.

**Learning about Target Phonemes:** You may choose to complete a select review of specific phonemes with which students demonstrated difficulty or a mixed review of all the taught phonemes. Tell students you will say a sound and a word (see Word Lists for suggestions) and the purpose for listening is to notice where the sound is in the word. *Where is /_/ in the word ______?* Tell students they will indicate where the sound is by putting a cube in the correct box on their Sound Boxes worksheet. Say samples and model touching the boxes as you segment the sounds. Then place the cube in the initial or medial position square depending on the position of the target sound. (Be sure to demonstrate so students view the correct directionality as you model. If you are facing students, this will be backwards to you.) Complete most of the sample items correctly, but also provide incorrect examples that address potential common mistakes.

---

<table>

<td><strong>Objective:</strong> State the purpose for listening and model the desired performance. <strong>Learning about Target Phonemes:</strong> You may choose to complete a select review of specific phonemes with which students demonstrated difficulty or a mixed review of all the taught phonemes. Tell students you will say a sound and a word (see Word Lists for suggestions) and the purpose for listening is to notice where the sound is in the word. <em>Where is /_/ in the word ______?</em> Tell students they will indicate where the sound is by putting a cube in the correct box on their Sound Boxes worksheet. Say samples and model touching the boxes as you segment the sounds. Then place the cube in the initial or medial position square depending on the position of the target sound. (Be sure to demonstrate so students view the correct directionality as you model. If you are facing students, this will be backwards to you.) Complete most of the sample items correctly, but also provide incorrect examples that address potential common mistakes.</td>

### Phonological Awareness: Phonemes (/k/, /g/, /a/, /o/, /i/)

#### Objective:
Prompt student attention to the articulation of target phonemes.

#### Exercise:
Play Thumbs-Up Review. Using the Articulation Chart, ask students yes or no questions about the target phonemes (/k/, /g/, /a/, /o/, /i/). Review checking for voicing by putting your hand on your throat to notice how the vowels feel and the difference between /k/ and /g/.

- Provide each student with a mirror.
- Tell students you will ask them questions about what they do to make the sounds for /k/, /g/, /a/, /o/, & /i/.
- Before answering, encourage students to make the sound looking in the mirror and feeling their throat for voicing.
- Remind students not to shout out the answer. Instead, if the answer is “yes,” show it with a thumbs-up. If the answer is “no,” show it with a thumbs-down.
- A fun way to let students check their own answer is for you to hide the correct thumbs-up or thumbs-down behind a piece of paper and reveal it once everyone has decided on their answer.
- If anyone provided an incorrect answer, model the correct articulation and have students repeat after you.

#### Questions:
- Is the mouth a little bit open for /k/?
- Are lips pressed together for /a/?
- Can you stretch the sound /g/?
- Is your voice on for /k/?
- Is your voice on for /i/?
- Is the mouth a little bit open for /o/?
- Does your tongue tap in the back of your mouth for /g/?
- Can you stretch the sound for /i/?

Reminder: Keep notes on the Articulation Chart regarding information mastered, progressing, or unfamiliar.
### Focus: Phonemes (/k/, /g/, /a/, /o/, /i/)

**Teaching**

**Objective:** State the purpose for listening and model the desired performance. 

**Learning about Target Phonemes:**

**Target Phonemes:** /k/, /g/, /a/, /o/, and /i/

- **/k/:** cat, kid, Kim, kick, kit
- **/g/:** got, gag, gig
- **/a/:** cat, gag
- **/o/:** got, cot, cog
- **/i/:** kid, Kim, kick, kit, gig

- Tell students you will say a sound and a word. The purpose for listening is to notice the location of the sound in the word. *Where is /_/_ in the word ______?*
- Tell students they will indicate the position of the sound by placing a cube in the correct box on their Sound Boxes worksheet.
- First, model with: *Where is the /k/ in the word cat?* Think aloud allowing students to hear you segment the sounds (/k/ /a/ /t/) and touch the boxes from students’ left to right for each sound. Then place a cube in the initial position box for the /k/ sound.
- Repeat: *Where is the /a/ in the word cat?* (Using the same word helps highlight the different positions of the target phoneme.)
- Next: *Where is the /g/ in the word gag?* This time put a cube in the final position and see if students notice that you need a cube in the initial position, too!
- If students do not notice your error, point out gag has /g/ in two places and make the correction.
- Continue with additional examples until you feel students are ready for practice.
### Guided Practice

**Focus:** Phonemes (/k/, /g/, /a/, /o/, /i/)

<table>
<thead>
<tr>
<th>Teaching</th>
<th>Materials</th>
</tr>
</thead>
</table>
| **Objective:** Provide an engaging opportunity to develop target phoneme skills with decreasing support as students’ skills strengthen.  
**Working with Target Phonemes:** Say the selected target phonemes and words for students continuing with the list from Explicit Instruction.  
**Target Phonemes:** /k/, /g/, /a/, /o/, and /i/  
- /k/: cat, kid, Kim, kick, kit  
- /g/: got, gag, gig  
- /a/: cat, gag  
- /o/: got, cot, cog  
- /i/: kid, Kim, kick, kit, gig  

Students use the cubes and Sound Boxes, as previously modeled by the teacher, indicating the location of the target sound in the word.  
**Application of Skills:**  
- Provide each student a set of picture cards for /k/ and /g/. Do not tell them what the target sounds are.  
- Ask students to do an Open Sort (refer to directions under Phonemes—Games: Picture Cards) to see if they can figure out how to put the pictures into two groups according to beginning sound.  
- Once the pictures are sorted, check the categories. Ask students to tell you the beginning sound for each group and name the pictures in each category to recheck their sort.  
- As students finish they can use their picture cards to play Memory with a partner.  

**Progress Monitoring option:** Students are still developing the ability to distinguish /k/ and /g/ and vowel sounds. They are not ready for a comprehensive check of isolating Unit 3 target phonemes. Some students have not yet achieved mastery scores for Blending, therefore use Blending Progress Monitoring 3.

### Independent Practice

**Objective:** Allow students to practice target phoneme skills with high levels of independence while striving for mastery.  
**Practicing and Extending Skills with Target Phonemes:** With a partner, students can sort picture cards for /k/ and /g/, check each others’ sorts, and play Memory with the picture cards.
**Dimensions of Difficulty**

Lessons can be crafted to be more or less difficult by varying the target position for listening for phonemes in a word and the type of phoneme contrasts examined. The chart below illustrates how lessons can be designed to be more or less challenging across both dimensions.

<table>
<thead>
<tr>
<th>Least Difficult</th>
<th>Contrast Phonemes with Distinct Articulation Features (e.g., /m/ and /a/)</th>
<th>Contrast Phonemes with Similar Articulation Features (e.g., minimal pairs /a/ and /i/)</th>
</tr>
</thead>
<tbody>

</tr>
<tr>
<td>Isolate a sound in the medial position</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Most Difficult</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
Articulation Chart

Refer to this chart for Warm-Up activities or any other time when reviewing articulation may help clarify letter-sound knowledge for students. Often students who struggle with the sound information of phonemes are supported by knowledge of the mechanical (i.e., physical) aspects of phonemes. For example, if students struggle to hear the difference between /t/ and /d/, they can rely on recognizing whether their voice is on or off to help identify the phoneme. Additional information other than material students learned in the Skills Strand Lessons is noted in italics.

<table>
<thead>
<tr>
<th>Phoneme</th>
<th>Articulation Features (Notice in the Mirror)</th>
<th>Is Your Voice On or Off?</th>
<th>Can You Stretch the Sound?</th>
</tr>
</thead>
<tbody>
<tr>
<td>/m/</td>
<td>Lips are together (Air goes through your nose! Pinch your nose and you’ll cut off the sound.)</td>
<td>On</td>
<td>Yes</td>
</tr>
<tr>
<td>/a/</td>
<td>Mouth is open wide and the tongue is low in the front of the mouth</td>
<td>On</td>
<td>Yes</td>
</tr>
<tr>
<td>/t/</td>
<td>Tip of the tongue taps behind the upper teeth, lips are open a little, and the air “pops” out (Note this is the same as /d/.)</td>
<td>Off</td>
<td>No*</td>
</tr>
<tr>
<td>/d/</td>
<td>Tip of the tongue taps behind the upper teeth, lips are open a little, and the air “pops” out (Note this is the same as /t/.)</td>
<td>On</td>
<td>No*</td>
</tr>
<tr>
<td>/o/</td>
<td>Mouth is open wide and jaw is lower than for /a/</td>
<td>On</td>
<td>Yes</td>
</tr>
<tr>
<td>/k/</td>
<td>Back of the tongue touches the roof of the mouth, lips are open a little, and the air “pops” out (Note this is the same as /g/.)</td>
<td>Off</td>
<td>No*</td>
</tr>
<tr>
<td>/g/</td>
<td>Back of the tongue touches the roof of the mouth, lips are open a little, and the air “pops” out (Note this is the same as /k/.)</td>
<td>On</td>
<td>No*</td>
</tr>
<tr>
<td>/i/</td>
<td>Mouth is open wide and jaw is higher than for /a/</td>
<td>On</td>
<td>Yes</td>
</tr>
</tbody>
</table>

Note: To check for voicing, put your hand on your throat as you make a letter-sound. If your voice is ON you will feel it vibrate!

*Plosive sounds are difficult to pronounce in isolation making it tempting to add a short vowel sound after the consonant sound (e.g., /buh/ instead of /b/). When you teach these sounds, make an effort to keep the sounds as clipped as possible.
**Minimal Pairs**

- /t/ and /d/ are minimal pairs because the only difference is whether the voice is on or off.
- /k/ and /g/ are minimal pairs because the only difference is whether the voice is on or off.
- /a/, /o/, and /i/ are minimal pairs because the only difference is the increased or decreased opening of the mouth. Producing the vowel sounds in this order: /i/, /a/, /o/, allows you to best feel the increased opening for each new vowel sound.

**Vowel Facts Learned in Unit 3 Skills Strand Lessons:**

1. Vowel sounds are made with the mouth open.
2. Vowel sounds are the parts of words you stretch out when you sing.
3. Vowel sounds are the sounds people stretch out when they call someone’s name.
4. Every word has a vowel sound.

If visual support is desired as a scaffold or required for activities such as blending to identify a picture, use words noted in **bold** (from Blending Picture Cards included as a Skills Strand resource) or *italic* (from Sound Cards included as a Skills Strand resource).

*These high-frequency words are included as additional examples of words with the target short vowel sound in the initial position. These words are often more challenging for students because the words are not easily connected to a concrete meaning.*
Phonemes—Worksheet

Sound Boxes: Identify the Position

Use Sound Boxes to have students indicate the position (initial, medial, or final) of target sounds in 2- and 3-phoneme words.

- Provide a worksheet for each student.
- Say a target sound and word using the sentence frame: Where is /__/ in the word ______? For example: Where is /g/ in the word got?
- Students repeat the word and segment the sounds, touching the boxes from left to right for each phoneme.
- Then students place a cube (or other object: beans, buttons, etc.) in the box matching the position of the target sound.
Name: ____________________________

Directions: Say a target sound and word using the sentence frame: Where is /_/_/ in the word _____? Students repeat the word and segment the sounds, touching the boxes from left to right for each phoneme. Then students place a cube (or other object) in the box matching the position of the target sound.

Sound Boxes: Phonological Awareness (Identify the Position)
**Phonemes—Games**

**Note to Teacher**

The following games should be restricted to the target sounds: /m/, /a/, /t/, /d/, /o/, /k/, /g/, and /i/.

**Give Me a Word**

Gather a collection of any variety of blocks (e.g., unit blocks or locking cubes).

- Tell students you will provide a sound and want them to say a word starting with that sound. For example: *Give me a word starting with /m/.* (If students struggle to think of a word, prompt them to look around the room for objects starting with the target sound.)

- As students provide words starting with the target phoneme, give them a block. With each block, students get a turn to place it, building a collective structure as the game continues.

**Give Me the Sound**

This is a variation of Give Me a Word (above).

Gather a collection of any variety of blocks (e.g., unit blocks or locking cubes).

- Tell students you will provide a word and want them to say the sound at the beginning of the word. For example: *Give me the sound at the beginning of mop.* (If students struggle to identify the beginning sound, repeat the word with the beginning sound drawn out: *mmmmop.*)

- As students provide beginning sounds, give them a block. With each block, students get a turn to place it, building a collective structure as the game continues.

- If successful with identifying beginning sounds, students could play this game by identifying sounds in the medial (vowels) or final position of words.

**Picture Cards**

Picture Cards are provided for use with the following games.

<table>
<thead>
<tr>
<th>/m/</th>
<th>/a/</th>
<th>/t/</th>
<th>/d/</th>
</tr>
</thead>
<tbody>
<tr>
<td>mat</td>
<td>hat</td>
<td>tag</td>
<td>dad</td>
</tr>
<tr>

<tr>
<td>dot</td>
<td>cow</td>
<td>goat</td>
<td>pig</td>
</tr>
</tbody>
</table>
• The following games should target sounds in the initial and medial position and be restricted to the target sounds: /m/, /a/, /t/, /d/, /o/, /k/, /g/, and /i/.

• Contrast combinations should be target according to student readiness (see Dimensions of Difficulty).

• We recommend copying and cutting the images from card stock to allow for reuse. For Memory, the images will need to be copied onto darker colored paper, otherwise students can see the images through the paper when they are turned over.

Isolating Sounds (Receptive)

• Lay out the picture cards for 2–4 target sounds.

• Review the names of all the pictures.

• Ask students to find a picture of something with the / _/ sound in the beginning/middle.

Isolating Sounds (Expressive)

• Lay out the picture cards for 2–4 target sounds.

• Review the names of all pictures.

• Ask students to tell you the beginning/middle sound for selected picture. (Scaffold this activity by naming the picture. If additional support is needed, segment the sounds for students.)

Closed Sorts

• Provide picture cards for 2–4 target sounds.

• Review the names of all pictures.

• Tell students which target sounds they need to listen for to help them sort the pictures.

• Complete the sorting with the appropriate level of support.

• Once the pictures are sorted, have students identify the sound for each category and name the pictures in each group to recheck their sort.

• A variation is the Speed Sort, in which you time students so they can race against themselves to get their best time.

Open Sorts

• Provide picture cards for 2–4 target sounds.

• Review the names of all pictures.

• Ask students to decide how to sort the pictures into groups according to beginning or vowel sounds.

• Once the pictures are sorted, have students identify the sound for each category and name the pictures in each group to recheck their sort.
Memory

• Provide picture cards for 2–4 target sounds.
• Review the names of all pictures.
• Model how to mix up the cards, lay them out, and take turns turning pairs over to look for matches.
• The goal is to match for the target sounds, such as two words beginning with /t/.
• As students become comfortable with the game they may be able to play independently.
Directions: Copy and cut these picture cards for use with the Unit 3, Section 1 Activities: Isolating Sounds, Open Sorts, and Memory. Darker card stock is recommended to prevent transparency and to allow for reuse. (See directions for each under Phonemes—Games.)

Picture Cards 1 (/m/ and /a/)

- a doormat
- a crescent moon
- a butterfly
- a cup
- a bowler hat
- a luggage tag
- a cat
- a boy
Directions: Copy and cut these picture cards for use with the Unit 3, Section 1 Activities: Isolating Sounds, Open Sorts, and Memory. Darker card stock is recommended to prevent transparency and to allow for reuse. (See directions for each under Phonemes - Games.)

Picture Cards 4 (/o/ and /i/)

- Log
- Mother and daughter
- Sock
- Circle
- Chick
- Fish
- Baseball glove
- Pig
Phonemes—Poems/Songs/Nursery Rhymes (P/S/NR)

Alliteration

Recite either of the following poems changing the alliteration for “Wee Willie Winkie” or “Peter, Peter, Pumpkin Eater” to a Unit 3 consonant target sound: /m/, /t/, /d/, /k/, or /g/. For example: Dee Dillie Dinkie runs through the town. Ask students to listen for your mixed-up beginning sound and tell you the mixed-up sound they heard (e.g., /d/).

• “Wee Willie Winkie” (P/S/NR Resource 24)
• “Peter, Peter, Pumpkin Eater” (P/S/NR Rhyme Resource 25)
Wee Willie Winkie

Wee Willie Winkie runs through the town,
Upstairs and downstairs in his nightgown,
Rapping at the window, crying through the lock:
Are all the children in their beds? It’s past eight o’clock!

Directions: Ask students to listen for the mixed-up beginning sound in Wee Willie Winkie’s name as you recite the poem changing the /w/ in the name to a Unit 3 consonant target sound: /m/, /t/, /d/, or /k/.
Peter, Peter, Pumpkin Eater

Peter, Peter, pumpkin eater,
Had a wife and couldn’t keep her.
He put her in a pumpkin shell
And there he kept her very well.

Directions: Ask students to listen for the mixed-up beginning sound in Peter, Peter, Pumpkin Eater as you recite the poem changing the /p/ in the name to a Unit 3 consonant target sound: /m/, /t/, /d/, /k/, or /g/.
Phonemes—Progress Monitoring

For Units 1 and 2 of the Assessment and Remediation Guide, progress monitoring was facilitated by charting general performance levels and scores on unassisted items from the Guided Practice portion of the lessons. For Unit 3 and beyond, progress monitoring continues to be a form of assessment integrated into instruction. The resources provide a systematic record of student mastery of skills, facilitating documentation and evaluation of student Response to Intervention. We recommend using the progress monitoring resources provided:

- within the Guided Practice section of the lesson plans. The resources are designed to parallel instructional tasks, allowing for brief, seamless integration. The intention is not to burden instructional time with additional assessments.

- only when, based on observation of instructional performance, students appear to be ready for a comprehensive check of the target skills for this section of Unit 3. Set schedules for progress monitoring assessments tend to result in their overuse. The resources are intended to serve as confirmation and a meaningful record of student progress, as opposed to a collection of numbers.

- to inform instruction! If student mastery of the target skills is confirmed by a Progress Monitoring assessment, then teachers can be confident in the decision to move students forward. If students do not achieve the goal scores for a Progress Monitoring assessment, analysis of errors will indicate areas of continued instructional need.
Blending

Preparation: Copy the page of pictures corresponding to the Progress Monitoring Assessment (#1–4) you have selected.

- Review the names of all pictures first.
- Tell students you are going to say groups of sounds and they should blend those sounds in their heads to make a word. Then they should circle the matching picture on the worksheet.
- Model with the sample item.
- Instruct students to look at the next row of pictures and say, “Please circle the picture of the (say the target object in segmented fashion, pausing slightly between each phoneme).”
- Complete the remaining rows.
  - Scoring: One point is awarded for each correctly identified picture.
  - Goal: 4 or 5 correct.
  - Scores of 3 or less indicate additional re-teaching and reinforcement is required from Assessment and Remediation Guide Unit 3 Section I: Phonological Awareness: Blending Boost! or possibly Unit 2 Section II: Phonological Awareness: Phonemes (Two or Three).

### Isolating Target Sounds in the Initial or Medial Position

**Preparation:** Copy the page of pictures you have selected corresponding to the Progress Monitoring Assessment (#1–4).

- Review the names of all pictures first.
- Explain to students you are going to say two words at a time. The words will be very similar, but one will have the target sound. Ask students:
  - “Which picture begins with the / __ / sound?” (for beginning consonants)
  - Or “Which picture has the / __ / sound in the middle?” (for medial vowels)
- Students should circle the matching picture on the worksheet.
- Model with the sample item.
- Instruct students to look at the next row of pictures and circle the picture with the target sound.
- Complete the remaining rows.

- **Scoring:** One point is awarded for each correctly identified picture.
- **Goal:** 4 or 5 correct.
- **Scores of 3 or less indicate that additional reteaching and reinforcement is required from Assessment and Remediation Guide Unit 3 Section I: Phonological Awareness: Phonemes (Two or Three).**

Isolating sounds score _________
Section II
Phonics
Determining Student Need for Section II, Phonics

**IF**

**A**
Student struggles with Unit 3 Objective: Recognize, isolate, and write the spellings for short vowel sounds (/a/, /o/, & /i/)

**B**
Student struggles with Unit 3 Objective: Recognize, isolate, and write single letter spellings for consonant sounds (/m/, /t/, /d/, /k/, & /g/)

**C**
Student struggles with Unit 3 Objective: Read and write any one-syllable short vowel CVC words

**D**
Student struggles with Unit 3 Objective: Read, spell, and/or write chains of one-syllable short vowel words

**E**
Student scores 20 or less on Part Two of the Unit 3 Student Performance Task Assessment and/or performs poorly on other evaluations of reading and spelling with the target letter-sound correspondences for Unit 3

**THEN USE**

Section II: Phonics

If student meets expectations, then continue with Unit 3 Skills Strand Lessons

If student continues to struggle

Then, target specific areas of weakness by following track A, B, C, or D.
## Lesson Template

### Phonics: Target Sound/Spellings

(‘m’ > /m/, ‘t’ > /t/, ‘d’ > /d/, ‘c’ > /k/, ‘g’ > /g/, ‘a’ > /a/, ‘o’ > /o/, ‘i’ > /i/)  

<table>
<thead>
<tr>
<th>Focus: Phonics: Target Sound/Spellings</th>
<th>Teaching</th>
<th>Materials</th>
</tr>
</thead>
</table>
| **Warm-Up**                            | **Objective:** Prompt student attention to the connection between written letters and spoken sounds for taught sound/spellings.  
**Exercise:** Play Match Me. Using sets of the Letter Cards, students “match you” according to the information you provide for target sound/spellings from Unit 3.  
You may choose to complete a select review of specific sound/spellings with which students demonstrated difficulty or a mixed review of all taught sound/spellings (see Sound/Spellings Chart).  
- Provide each student with a set of Letter Cards for the sound/spellings target in the Warm-Up.  
- Tell students you will either say the sound or show the spelling.  
- If a sound is provided, students should find the corresponding spelling (Letter Card)  
- If a spelling (Letter Card) is shown, students should prepare to provide the corresponding sound when prompted.  
- If anyone provides an incorrect answer, correct the error, and have students repeat the item.  
Keeping notes on the Sound/Spellings Chart regarding information mastered, progressing, or unfamiliar will help you formulate future questions targeted to student need. | Sound/Spelling Chart, Letter Cards |

| **Explicit Instruction** | **Objective:** State the purpose for using sound/spelling knowledge and model the desired performance.  
**Learning about Target Sound/Spellings:** Select a Review the Sound/Spelling page to re-teach sound/spellings.  
- Remind students of the articulation needed to make the target sound (See the Articulation Chart in Section I).  
- Discuss the picture of the sound and briefly review the strokes for letter formation.  
- Have students complete the bottom of the page by writing the sound/spelling on the handwriting line for the images utilizing the target sound. | Review the Sound/Spelling |
### Guided Practice

**Focus:** Phonics: Target Sound/Spellings

<table>
<thead>
<tr>
<th>Teaching</th>
<th>Materials</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Objective:</strong> Provide an engaging opportunity to develop target sound/spelling knowledge with decreasing support as students' skills strengthen.</td>
<td></td>
</tr>
<tr>
<td><strong>Working with Target Sound/Spellings:</strong> Students are familiar with chaining from the Unit 3 Skills Strand Lessons. Here students will apply their knowledge similarly. The difference will be the teacher and students will write the words. (Writing for students reinforces knowledge of letter formation and spelling patterns.)</td>
<td></td>
</tr>
</tbody>
</table>

- Select a chaining list. (See Chaining Lists under Word Lists for suggestions.)
- Display the letters utilized in the chain. The letters may be written at the top of the board or chart paper or may be letter cards set out in front of students on the table.
- Start with chaining for reading. (Decoding tends to be less challenging than encoding.) Tell students you will use the letters to write words for them to read.
- Write the first word and tell students to look at the pictures of the sounds from left to right. As they look at the pictures, they need to remember the sounds the pictures stand for and blend the sounds together to make the word.
- Make the letter change needed for the next word and describe the change as it is made. For example say, “Now I’m taking away the /t/ and putting a /d/ at the end of the word. What word did I make now?”
- Continue until the chain is complete. |

Chaining List (Letter Cards if needed)
- Dry Erase Board or Chart Paper and Marker
- Dry Erase Board, Dry Erase Marker, and Eraser, or Paper with Handwriting Lines and Pencils for each student
- Activity Dependent: Worksheet and/or Game resources
- Progress Monitoring resources
<table>
<thead>
<tr>
<th>Focus: Phonics: Target Sound/Spellings</th>
<th>Teaching</th>
<th>Materials</th>
</tr>
</thead>
<tbody>
<tr>
<td>Guided Practice (Cont.)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

If support is needed, model the sounds and blending. Also encourage students to use the blending motions they have learned.

- Next use the same or an alternate chain for *spelling*. Tell students you will say words for them to write, and for each new word they will only need to change one letter.
- Say the first word and tell students to segment the word into sounds. As they break apart the sounds, they need to remember the picture of the sound and write each down from left to right.
- Provide the next word and have students explain the change they had to make from the previous word.
- Continue until the chain is complete.

If support is needed, model breaking the sounds apart and writing the picture for each sound.

**Application of Skills:** Select Worksheets and Games allowing students to apply target sound/spelling knowledge.

**Progress Monitoring Option:** Incorporate progress monitoring checks here as needed.

<table>
<thead>
<tr>
<th>Independent Practice</th>
<th>Guided Practice</th>
</tr>
</thead>
</table>

**Objective:** Allow students to practice targeted sound/spelling knowledge with high levels of independence as they strive for mastery.

**Practicing and Extending Skills with Target Sound/Spellings:** Revisit previously taught activities allowing students to practice target sound/spelling knowledge with classmates.
### Phonics: Target Sound/Spellings

\( ('i' \rightarrow /i/) \)

<table>
<thead>
<tr>
<th>Focus: Phonics: Target Sound/Spelling ('i' ( \rightarrow /i/) )</th>
<th>Teaching</th>
<th>Materials</th>
</tr>
</thead>
</table>
| **Warm-Up** | **Objective:** Prompt student attention to the connection between written letters and spoken sounds for taught sound/spellings.  
**Exercise:** Play Match Me. Using sets of the Letter Cards, students “match you” according to the information you provide for target sound/spellings from Unit 3.  
(Students are working well with all consonants that have been taught and struggling with the vowels. Short /a/ has been explicitly taught and is reviewed here. Short /i/ will be the focus in today’s lesson.)  
- Provide each student with a set of Letter Cards (‘m’, ‘t’, ‘d’, ‘c’, ‘g’, ‘a’, & ‘o’).  
- Tell students you will either say the sound or show the spelling.  

<table>
<thead>
<tr>
<th>Teacher Prompt</th>
<th>Student Response</th>
</tr>
</thead>
<tbody>
<tr>
<td>/m/</td>
<td>‘m’</td>
</tr>
<tr>
<td>‘t’</td>
<td>/t/</td>
</tr>
<tr>
<td>‘d’</td>
<td>/d/</td>
</tr>
<tr>
<td>/k/</td>
<td>‘c’</td>
</tr>
<tr>
<td>/g/</td>
<td>‘g’</td>
</tr>
<tr>
<td>/a/</td>
<td>‘a’</td>
</tr>
<tr>
<td>‘o’</td>
<td>/o/</td>
</tr>
</tbody>
</table>

- If anyone provides an incorrect answer, correct the error, and have students repeat the item.  
Reminder: Keep notes on the Sound/Spellings Chart regarding information mastered, progressing, or unfamiliar.  
| Sound/Spelling Chart and Letter Cards for (‘m’, ‘t’, ‘d’, ‘c’, ‘g’, ‘a’, & ‘o’; NOT ‘i’) |
### Focus:
**Phonics:** Target Sound/Spelling ('i' > /i/)

#### Explicit Instruction

**Objective:** State the purpose for using sound/spelling knowledge and model the desired performance.

**Learning about Target Sound/Spellings:** Use the Review the Sound/Spelling page for 'i' to re-teach the sound/spelling.
- Remind students of the articulation needed:

<table>
<thead>
<tr>
<th>Phoneme</th>
<th>Articulation Features</th>
<th>Voice</th>
<th>Stretch</th>
</tr>
</thead>
<tbody>
<tr>
<td>/i/</td>
<td>Mouth is open wide and jaw is higher than it is for /a/</td>
<td>On</td>
<td>Yes</td>
</tr>
</tbody>
</table>

- Briefly review the strokes for letter formation.
- Have students complete the bottom of the page by writing the sound/spelling on the handwriting line for the images depicting the target sound.

**Materials**
- Review the Sound/Spelling (i) page

#### Guided Practice

**Objective:** Provide an engaging opportunity to develop target sound/spelling knowledge with decreasing support as students' skills strengthen.

**Working with Target Sound/Spellings:** Students are familiar with chaining from the Unit 3 Skills Strand lessons. Here, students will apply their knowledge similarly. The difference will be the teacher and students will write the words. (Writing for students reinforces knowledge of letter formation and spelling patterns; however, if the motor aspect of writing inhibits student attention to sound/spelling connections, letter cards can be used instead.)

- Select a chaining list: *it > mit > dit > git*
- Display the letter cards on the table in front of students: ‘m’, ‘t’, ‘d’, ‘g’, and ‘i’.
- Start with chaining for reading. Tell students you will use the letters to write words for them to read.
- Write the first word (*it*) and tell students to look at the pictures of the sounds from left to right, noticing the vowel sound /i/ attached to /t/. As they look at the pictures, they need to remember the sounds the pictures stand for and blend the sounds together to make the word.
- Tell students you will add sounds to the beginning of this /i/ /t/ combination to make new words. Explain the letter change needed for the next word is ‘m’ > /m/ and describe the change as it is made saying, “Now I’m adding the /m/ and to the beginning of the word. What word did I make now?”
- Continue until the chain is complete.

**Materials**
- Chaining List and Letter Cards (*m*, ‘t’, ‘d’, ‘g’, and ‘i’)
- Dry Erase Board and Marker
- Dry Erase Board, Dry Erase Marker, and Eraser for each student
- Sound Boxes, Letter Cards (*m*, ‘t’, ‘d’, ‘g’, and ‘i’), and Making Words
### Guided Practice (Cont.)

**Focus:**
**Phonics:**
**Target Sound/Spelling**
('i' > /i/)

#### Teaching

If support is needed, model the sounds and blending. Also encourage students to use the blending motions they have learned.

1. Next use the same chain for spelling. Tell students you will say words for them to write, and for each new word they will only need to change one letter.
2. Say the first word (if) and tell students to segment the word into sounds. As they break apart the sounds, they need to remember the picture of the sound and write each down from left to right.
3. Provide the next word (mit) and have students explain the change they had to make from the previous word. (*Put /m/ at the beginning.*)
4. Continue until the chain is complete.

If support is needed, model breaking the sounds apart and writing the picture for each sound.

#### Application of Skills:
Provide students with a copy of Sound Boxes, the needed Letter Cards, and Making Words (Initial Position) 4. Students should be familiar with completing the Making Words page and using the Sound Boxes to build words from previous lessons.

#### Progress Monitoring Option:
(Students are still developing the ability to distinguish vowel sounds and are not ready for a comprehensive check of Unit 3 target sound/spellings.)

### Independent Practice

**Objective:** Allow students to practice target sound/spelling knowledge with high levels of independence as they strive for mastery.

**Practicing and Extending Skills with Target Sound/Spellings:** Provide a clean copy of Making Words (Initial Position) 4 and ask students to complete the page again without using the Sound Boxes. Once the words are complete, circle the real words and (optional) sketch a picture of each one.

Continued from Guided Practice
Directions: Copy (card stock is recommended to allow for reuse) and cut out these Letter Cards for use with the Unit 3 Section II activities: Match Me (See directions within the Lesson Template Warm-Up section.), Push & Say (See directions under Phonics—Worksheets.), and Race to the Top (See directions under Phonics—Games.). Note: Consonants used in the initial and final position when building words are provided twice on this page.

</tbody>
</table>

**Note:** Pseudowords are often included in the chains, especially at this early stage when the number of real words that can be read or spelled is limited. Spelling pseudowords also forces students to solely use phonics knowledge because they cannot rely on memorized spelling. You may wish to point out when a word is not a real word or ask students to identify when a silly word is included.
Phonics—Worksheets

Review the Sound/Spelling

Review the target sound/spellings from Unit 3 with these worksheets.

- The image of the girl pronouncing the target sound is provided to prompt attention to the articulation of the sound (See the Articulation Chart in Section I). The word provided is an exemplar allowing students to listen for the target sound within a word.

- Letter formation arrows are also provided for the picture of each sound, which can serve as a reference when writing and/or as tracing practice if used with a clear plastic sleeve and dry erase marker.

- A few items are revisited from the Meet the Spelling Worksheets of Unit 3 to prompt students to listen for the target sound and practice its letter formation.

_____
Push & Say

Use Sound Boxes to have students build words with support for individual sounds.

- Provide the Sound Boxes page and a set of Letter Cards corresponding to the words selected for building. Students should line up the letter cards below the Sound Boxes page.

  **Note:** Multiple copies of consonants are needed for words such as *mom*, *did*, and *gag*.

- Say a word, such as *did*.

- Students echo the word and then individually work to select the Letter Cards for the sound/spellings identified as they segment the word into phonemes.

- Have students place the Letter Cards directly below the boxes in the correct positions from left to right. Tell students they will not always use all the sound boxes.

- Once you see a student is ready, ask him or her to push the cards into the boxes from left to right and say the sound as he or she pushes each card. Immediately, students should run their finger under the word in one smooth motion and say the whole word blended.

- Clear the board for the next word.

- Sound Boxes can be used in varied ways:
  - Select words from the Phonics—Word Lists for students to practice building and blending target sound/spellings.
  - Students who struggle to write the words from the Making Words activities in this section, may be supported by building in Sound Boxes first and then copying the word onto the handwriting lines.
  - Sound Boxes may also support students during Chaining activities. For *reading* the teacher may build or write sound/spellings in the boxes to help highlight the positions of phonemes, particularly helping to focus student attention to the correct position as spellings change to form a new word. Similarly, for *spelling* the students may build or write sound/spellings in the boxes for support as they break apart and record the phonemes they hear in words.
  - If additional support is needed, first practice by asking students to flip their Letter Cards over to the blank side and Push & Say for a few practice words using the blank side of the cards. This removes the component of identifying the correct sound/spelling, allowing students to start with a focus on the sounds and their positions before adding in the task of connecting the sounds to spellings.
• It will be least difficult for students to build words in which the vowel and final position consonant stay the same and only the beginning sound is changed (e.g., it > mit > kit > dit). The next step is to keep a stable vowel and only change the beginning and ending sounds (e.g., mat > mad > dad > tad) If successful, ask students to manipulate sounds from any position (e.g., got > dot > dog > dig).
Directions: This Sound Boxes page is provided for use with the Unit 3 Section II activity Push & Say. Say a two- or three-phoneme word. Students echo the word and segment the sounds, placing corresponding letter cards below the boxes from left to right. Then students push the letter cards into the boxes from left to right and say the sound as they push each card. Immediately, students run their finger under the word in one smooth motion and say the whole word blended.

Making Words

Students reinforce phonics knowledge by making words.

- Select a Making Words page according to the sound-spellings targeted for remediation.
  - Pages 1–6 offer the highest level of support by having students make words by manipulating the sound in the initial position only.
  - Pages 7–9 have students make words by manipulating the sound in the initial and final position.
- Model how to use the letters surrounding the center box to make words.
- Tracing the path of letters may support students as they attempt sound-spelling combinations.
- Students write the words they make on the lines provided below.
- Ensure comprehension by asking students to identify the read words and use them in an oral sentence or sketch a picture.
- More words can be created than the number of lines provided. For students who are capable of productively continuing to create additional words, the Extension Page can be copied and provided.
- If students struggle to write the words onto the handwriting lines, scaffold them by providing the Sound Boxes in a plastic sleeve with a dry erase marker. The Sound Boxes offer support for writing the individual sounds, and the words can then be copied onto the handwriting lines. Another option, if slightly less support is needed, is to draw vertical lines on the handwriting lines segmenting them into spaces for sound-spellings.
Directions: Students use the letters surrounding the center box to make words and write the words on the lines provided below.

**Note To Teacher**

Reviewing the names of images prior to utilizing them in activities is typically prudent. However, in this section, only images familiar to students are utilized and it is likely review will not be necessary.

**BINGO**

Students can apply learned sound/spelling knowledge from Unit 3 to read words as they play the traditional game BINGO. Here, the game is tailored appropriately for students’ developmental level with only three spaces across, down, or diagonal.

- The word cards needed to copy and cut out are provided following the game boards. We recommend copying and cutting the boards and word cards from card stock to allow for reuse.

- Any collection of tokens can be used for students to cover spaces on their game boards (e.g., cubes, beans, tiles, etc.).
  - As word cards are selected and read, students search for the word on their game board.
  - Ask students to put their finger on the word if they find it and read it aloud to confirm they are correct before covering the space.

- When students are incorrect, use the opportunity to address the confusion.

- When students are correct ask, “How did you know that was ______?” (This verbalization of knowledge or strategies used is powerful for reinforcing learning.)

- The game may be played until one or all students get three spaces covered in a row, or until one or all students get “black-out” (covering the entire board).
Directions: Copy (card stock is recommended to allow for reuse) and cut out the game boards. Students apply phonics knowledge by reading words to play the traditional game BINGO. (See directions under Phonics—Games.)

Race to the Top

- Each student gets their own ladder game board and game piece, and will share a set of game cards. (We recommend copying and cutting the images from card stock to allow for reuse.)

- Students perform according to the cards used and game variation chosen. For correct answers students move up a rung; for incorrect answers students fall down a rung. The first one who gets to the top wins.

- Using Letter Cards: Cards can be placed face down between the students.
  - Give the Sound: As Letter Cards are flipped over, students provide the correct sound.
  - Give the Word: As Letter Cards are flipped over, students provide a word starting with the sound.

- Using Word/Picture Cards: Cards should be concealed and drawn from a container, such as a brown bag.
  - Read It: As cards are drawn, the word side of the card is shown to the opposing player to be read. The picture side allows for confirmation/correction.
  - Spell It: As cards are drawn, the picture side of the card is shown to the opposing player to be spelled (e.g., on a dry erase board). The word side allows for confirmation/correction.

Memory

Provide students with a set of cards which include some with words and others with the corresponding images for those words (Word/Picture Cards). We recommend copying and cutting the images from card stock to allow for reuse. For Memory the images will need to be copied onto darker colored paper, otherwise students can see the images through the paper when they are turned over.

- Model how to mix up the cards, lay them out, and take turns turning pairs over to look for matches.

- The goal is to match the word with its corresponding image.

- As students become comfortable with the game it may be played independently.
Directions: Copy (card stock is recommended to allow for reuse) this page for the game Race to the Top. Students apply sound/spelling knowledge when played with Letter Cards. More complex phonics knowledge is applied when played with Word/Picture Cards. (See directions under Unit 3, Section II: Phonics – Games.)
Directions: These Word/Picture Cards are provided for use with the Unit 3 Section II games. (See directions under Phonics – Games.) For Race to the Top, copy (card stock is recommended to allow for reuse) and cut out word/picture pairs, fold along the middle line, and tape together providing two-sided cards. For Memory: copy/darker colored card stock is recommended to prevent seeing through and allow for reuse. For Cut and Out, separating word and picture cards.

For Memory, copy (darkest colored card stock is recommended to prevent seeing through and allow for reuse) and cut out, separating word and picture cards.
Directions: These Word/Picture Cards are provided for use with the Unit 3 Section II games. (See directions under Phonics—Games.) For Race to the Top, copy (card stock is recommended to allow for reuse) and cut out word/picture pairs, fold along the middle line, and tape together. For Memory, copy (darker colored card stock is recommended to prevent seeing through) and cut out, separating word and picture cards.
Phonics—Progress Monitoring

For Units 1 and 2 of the Assessment and Remediation Guide, progress monitoring was facilitated by charting general performance levels and scoring unassisted items from the Guided Practice portion of the lessons. For Unit 3 and beyond, progress monitoring continues to be a form of assessment integrated into instruction. The resources create a systematic record of student mastery of skills, facilitating documentation and evaluation of student Response to Intervention (RtI). We recommend using the progress monitoring resources provided:

• within the Guided Practice section of the lesson plans. The resources are designed to parallel instructional tasks, allowing for brief, seamless integration. The intention is not to burden instructional time with additional assessments.

• only when, based on observation of instructional performance, students appear to be ready for a comprehensive check of the target skills for this section of Unit 3. Set schedules for progress monitoring assessments tend to result in their overuse. The resources are intended to serve as confirmation and meaningful record of student progress, as opposed to a collection of numbers.

• to inform instruction! If student mastery of the target skills is confirmed by a progress monitoring assessment, then teachers can be confident in the decision to move students forward. If students do not achieve the goal scores for a progress monitoring assessment, analysis of errors will indicate areas of continued instructional need.

Directions

Preparation: This assessment involves asking individual students to read five words. In addition to Word Reading, assessments for Pseudoword Reading are also included. Pseudoword Reading assessments are provided as an option if you suspect students have memorized some of the words and are using automatic word recognition instead of applying decoding knowledge. This may be the case with students in need of remediation and reteaching who have had extended and repeated opportunities to work with these specific words. Copy the page of words with the corresponding record sheet for the Progress Monitoring Assessment (#1–4) you have selected, and cut out the words.

• Model with the sample item.

• Show the cards to the student one at a time.

• Use the record sheet to record each word as the student reads.

• Place a check next to each word read correctly.
• For misread words, write exactly what students say as the word is sounded out. If students misread a word, prompt them to try to read the word again, letting them know their first attempt was incorrect.

• Students may benefit from the supports utilized during instruction such as blending motions and representing sounds with objects (e.g., Push & Say). Demonstrate and encourage their use during modeling with the sample item if needed. The goal is for students to eventually be capable of completing the tasks without physical supports or, at least, utilizing the supports independently (without your prompt).

• Scoring: Scoring is based on one point assigned for every sound read correctly in a word. Interpret scores as follows:
  • 14–15 points—excellent
  • 11–13 points—good
  • 8–10 points—fair
  • Less than 8 points—poor

• Further analyze student errors to determine whether there are one or more individual letter-sound correspondences that are particularly problematic. The subtotals for each sound-spelling at the bottom of the record sheets facilitate the identification of specific problem areas.

• Also examine whether there are mispronunciations occurring more frequently in a given position in words. For example, does the student read the initial sound correctly, but misread the medial and/or final sound?

• Finally, examine whether the student succeeded in reading words correctly on the second attempt. If so, the student may be rushing and may benefit from explicit instruction to slow down and look at each letter in a word sequentially, left to right.

• Goal: Achieve scores of good or excellent.

• Scores of 10 or less indicate additional re-teaching and reinforcement is required from Assessment and Remediation Guide Unit 3 Section II: Phonics.

Section III
Writing: Lowercase Letter Formation
IF

A
Student struggles with Unit 3 Objective: Hold a writing utensil with a tripod (or pincer) grip and make marks on paper (Trace, copy, and write lowercase letters 'm,' 'a,' 't,' 'd,' 'o,' 'c,' 'g,' & 'i')

B
Student performs poorly on other evaluations of lowercase letter formation for the target letter-sound spellings for Unit 3

Review with Pausing Point: Write the Spellings Learned in Unit 3 and/or Write Two- and Three-Sound Words

If student meets expectations, then continue with Unit 3 Skills Strand Lessons

If student continues to struggle

THEN USE
Section III: Writing: Lowercase Letter Formation
### Writing: Lowercase Letter Formation

<table>
<thead>
<tr>
<th>Focus: Lowercase Letter Formation</th>
<th>Teaching</th>
<th>Materials</th>
</tr>
</thead>
</table>
| **Warm-Up**                      | **Objective:** Literally *warm up* the large and small muscles of the arms and hands used for writing.  
**Exercise:** Choose two or three handwriting warm-up exercises. (See Handwriting Warm-Up Exercises for suggestions.) | Activity Dependent |
| **Explicit Instruction**         | **Objective:** Model the target lowercase letter formation.  
**Learning about Lowercase Letter Formation:** Tell students which sound(s) you will practice drawing for today’s lesson.  
- Demonstrate drawing a large picture of the target sound(s) on chart paper or the board and saying the letter formation chant while doing so. (See Letter Formation Chants.) If possible, seat students so they are looking *up* for the letter formation modeling and drawing in the air (see next step), because looking up (chin down, eyes up) helps students access visual memory.  
- Repeat (tracing the first letter), inviting students to draw in the air and say the chant with you. (Fun pointers often help engage students!) Students should move their whole arm from the shoulder when drawing in the air.  
- Repeat, drawing in the air and saying the chant, this time with *eyes closed.* Prompt students to pay attention to how their arm and hand move and feel while their eyes are closed.  
- Draw a new large picture of the target sound(s) asking students:  
  - *Where do I start my line?*  
  - *Which direction does it go to make a picture of /_\ for writing?*  
  - *What do I draw next?*  
- Draw additional samples forming most letters correctly, but also draw two or three incorrectly to address common mistakes. | Writing surface and implement (e.g., chalkboard and chalk)  
Pointers for each student |
<table>
<thead>
<tr>
<th>Focus: Lowercase Letter Formation</th>
<th>Teaching</th>
<th>Materials</th>
</tr>
</thead>
</table>
| **Guided Practice**              | **Objective:** Provide an engaging opportunity to develop letter formation with decreasing support as students’ skills strengthen.  
**Working with Lowercase Letter Formation:** Using individual writing supplies, ask students to:  
- Demonstrate the tripod grip. (Correct as needed.)  
- Draw one big picture of a target sound/spelling on the board to show you.  
- Next, erase and draw four pictures of the sound and show you the best one.  
- Then, erase and fill the board with pictures of the sound in differing sizes.  
**Application of Skills:** Select Worksheets or Games allowing students to practice the letter formation(s) focused on in the lesson.  
**Progress Monitoring Option:** Incorporate progress monitoring checks here as needed. | Writing surface and implement (e.g., chalkboard and chalk) per student  
Activity Dependent: Worksheet and/or other drawing resources per student  
Progress Monitoring resources |
| **Independent Practice**         | **Objective:** Allow students to practice letter formations near mastery with high levels of independence. In addition, bolster writing readiness with fine motor activities if needed.  
**Practicing and Extending Skills with Lowercase Letter Formation:**  
- Practicing Lowercase Letter Formation: Revisit previously taught activities allowing students to practice the letter formation(s) in the lessons.  
- Refining Fine Motor Skills: Engage in an activity promoting fine motor strength and skill. (See Fine Motor Activities for suggestions. These activities should be previously taught and practiced before students are expected to engage with them independently.) | Guided Practice  
Fine Motor Activity resources |
### Writing: Lowercase Letter Formation (‘a’ and ‘d’)

<table>
<thead>
<tr>
<th>Focus: Lowercase Letter Formation (‘a’ and ‘d’)</th>
<th>Teaching</th>
<th>Materials</th>
</tr>
</thead>
</table>
| **Warm-Up**                                    | **Objective:** Literally *warm up* the large and small muscles of the arms and hands used for writing.  
**Exercise:**  
• Chair sit-ups  
• Pass around a weighted ball | **Weighted ball** |
| **Explicit Instruction**                       | **Objective:** Model the target lowercase letter formation.  
**Learning about Lowercase Letter Formation:** Tell students they will practice drawing the picture of /a/ and /d/, because the line is important to determine the difference between them.  
• Demonstrate drawing /a/ on the board and saying the letter formation chant while doing so. (*a*: *Circle to the left, add a short line to me; then the little /a/ is what you will see.*) Seat students on the floor in front of the board so they are looking up (chin down, eyes up) to help access their visual memory.  
• Repeat (tracing the first letter), inviting students to draw in the air using their pointers and saying the chant with you. Students should move their whole arm from the shoulder when drawing in the air.  
• Repeat, drawing in the air and saying the chant, this time with eyes closed. Prompt students to pay attention to how their arm and hand move and feel while their eyes are closed.  
• Draw a new large picture of /a/ asking students:  
  • *Where do I start my line?*  
  • *Which direction does it go to make a picture of /a/ for writing?*  
  • *What do I draw next?*  
• Draw additional samples, saying the chant, and make the mistake of adding a long line down to the circle. If students do not catch your error, point out your line is too long and makes the /a/ look like a /d/. Redo the /a/ correctly.  
• Repeat steps 1–5 for /d/. (*d*: *Circle to the left, add a long line down to me; then a little /d/ is what you will see.*) | **Dry erase board, dry erase marker, and tissue**  
**Pointers for each student** |
<table>
<thead>
<tr>
<th>Focus: Lowercase Letter Formation ('a' and 'd')</th>
<th>Teaching</th>
<th>Materials</th>
</tr>
</thead>
</table>
| Guided Practice | Objective: Provide an engaging opportunity to develop lowercase letter formation with decreasing support as students’ skills strengthen. Working with Writing Grip Strokes and Own Name: Using individual writing supplies ask students to:  
  • Demonstrate the tripod grip. (Correct as needed.)  
  • Draw one big picture of /a/* on the board to show you.  
  • Next erase and draw four pictures of /a/* and show you the best one.  
  • Then erase and fill the board with pictures of /a/* of differing sizes.  
  • Repeat steps 2–4 for /d/*.
  *Students should repeat the chant every time they draw a sound.  
Application of Skills: Provide students with a copy of Alphabet Mural 1 in a plastic sleeve. Ask students to trace all the pictures of /a/ and /d/. Remind them to say the chant each time they trace a picture of a sound.  
Progress Monitoring Option: Once students complete their Alphabet Mural page, ask them to complete Progress Monitoring 2. | Dry erase board, dry erase marker, and tissue per student  
In a plastic sleeve for each student: Alphabet Mural 1  
Copies of Word Reading 2 |
| Independent Practice | Objective: Allow students to practice letter formations near mastery with high levels of independence. In addition, bolster writing readiness with fine motor activities.  
Practicing and Extending Skills with Writing Strokes and Own Name:  
  • Practicing Lowercase Letter Formation: Once students complete Progress Monitoring 2, return their copy of Alphabet Mural 1 in a plastic sleeve to provide additional practice. Invite students to say the sound instead of the whole chant as they trace each letter this time.  
  • Refining Fine Motor Skills: Provide students with two cans of beans that have holes cut in the top of the plastic lids. Have students dump out the beans and, as individuals or teams, race to fill their can back up. | Same as Guided Practice  
Two cans of beans with slots cut in the top of the plastic lids |
**Methods for Practicing Letter Formation**

Gross motor abilities tend to develop before fine motor abilities. Therefore, the following chart provides options allowing you to meet students at their motor ability level and steps to foster their fine motor development. If students struggle to improve their fine motor skills, consult with support staff (e.g., occupational therapist, school nurse, etc.) to evaluate for other potential physical obstacles.

<table>
<thead>
<tr>
<th>Refining Steps (Gross to Fine Motor)</th>
<th>Surfaces</th>
<th>Methods</th>
</tr>
</thead>
</table>
| **Step 1** | Large vertical surfaces | • Classroom dry erase board or chalkboard  
• Easel  
• Chart paper taped to the wall |
| | | *Implements such as a paintbrush with water on the chalkboard supports large strokes. Implements such as crayons on easel paper encourage more refined strokes.* |
| **Step 2** | Large horizontal surfaces | • Table or desk covered with paper  
• Cookie sheet with rice or shaving cream  
• Sand table/box  
• Poster board  
• Full newspaper sheet |
| | | *Using the pointer finger in rice, shaving cream, or sand supports large strokes. Refined strokes are encouraged by using the tripod grip with implements: drawing with the point of a paintbrush in rice, shaving cream, or sand and using crayons and markers on paper.* |
| **Step 3** | Medium horizontal surfaces | • Large construction paper  
• Legal size paper  
• Brown grocery bag  
• Folded/cut newspaper sheet |
| **Step 4** | Small horizontal surfaces (large strokes) | • 8.5 x 11 paper plain or in a plastic sheet protector sleeve*  
• Individual dry erase boards or chalkboards  
• Small construction paper  
• Notepads  
• Paper plates |
| **Step 5** | Small horizontal surfaces (small strokes) | Same as Step 4. Instead of using the full surface for large strokes, students draw small strokes: tracing or free form, filling in shapes, on lines, etc. |

*Dry erase markers and an eraser (tissue, sock, other cloth) can be used to write and erase on plastic sleeves, allowing students to reuse worksheets or other practice pages.*
Handwriting Warm-Up Exercises

- Chair sit-ups: while seated, have students place their hands on either side of their hips and raise their bottoms up off of their chairs.
- Press down hard on desktop with both hands.
- Briskly rub hands together.
- Place the fingertips together and do finger “push-ups.”
- Pass around a weighted ball.
- Wall push-ups: Place both hands on the wall with both feet about a foot from the wall and lean into the wall bending both elbows and then push back out.
- Stretch thick rubber bands between fingers and thumb.
- Push the palms together, then fold fingers around each other and try to pull them apart.
- Clap hands in a rhythm and have the students imitate.

Source: http://drzachryspedsottips.blogspot.com/search/label/Handwriting
Letter Formation Chants

‘m’: Short line down, add a hump, hump to me; then the little /m/ is what you will see.

‘a’: Circle to the left, add a short line to me; then the little /a/ is what you will see.

‘t’: Long line down, add a line across up high to me; then a little /t/ is what you will see.

‘d’: Circle to the left, add a long line down to me; then a little /d/ is what you will see.

‘o’: Circle to the left, that’s all for me; then a little /o/ is what you will see.

‘c’: Circle to the left, leave it open for me; then a little /k/ is what you will see.

‘g’: Circle to the left, add a fish hook below to me; then a little /g/ is what you will see.

‘i’: Short line down, add a dot above me; then a little /i/ is what you will see.

*Incorporates CKLA Goal: Use spatial words in Meet the Spelling activities.

All activities promote CKLA Goal: Demonstrate understanding that a systematic, predictable relationship exists between written letters and spoken sounds.
Lowercase Letter Formation—Worksheets

Lowercase Letter Formation Practice

Familiar practice formats used in the Unit 3 Workbook are available here to provide large, medium, and small letter formation practice for each of the letter sound spellings: ‘m’ > /m/, ‘a’ > /a/, ‘t’ > /t/, ‘d’ > /d/, ‘o’ > /o/, ‘c’ > /k/, ‘g’ > /g/, and ‘i’ > /i/.

To promote the meaning link between letter formations as a representation of speech sounds, encourage students to say the lowercase letter formation chant or the letter sound each time they draw a picture of a target sound while completing the worksheets for practice.
Directions: Have students trace the letter several times, using a different color crayon each time. Make sure students start tracing at the starting dot. Students should say the letter formation chant or the sound as he or she writes the letter.
Name: ____________________________

Name:

Directions: Have students trace the letter several times, using a different color crayon each time. Make sure students start tracing at the starting dot. Students should say the letter formation chant or the sound as he or she writes the letter.
Directions: Have students trace the letter several times, using a different color crayon each time. Make sure students start tracing at the starting dot. Students should say the letter formation chant or the sound as he or she writes the letter.
Directions: Have students trace the letter several times, using a different color crayon each time. Make sure students start tracing at the starting dot. Students should say the letter formation chant or the sound as he or she writes the letter.
Small Letter Practice 1 (m)

Directions: Have students trace and copy the letter. The motion can be described as 1. short line down; 2. hump; 3. hump. Student should say the sound as he or she writes the letter.
Directions: Have students trace and copy the letter. The motion can be described as 1. circle to the left; 2. short line down. Student should say the sound as he or she writes the letter.
Directions: Have students trace and copy the letter. The motion can be described as 1. long line down (lift); 2. line across. Student should say the sound as he or she writes the letter.
Directions: Have students trace and copy the letter. The motion can be described as 1. circle to the left; 2. long line down. Student should say the sound as he or she writes the letter.
Directions: Have student trace and copy the letter 'o'. The motion can be described as 1. circle to the left.

Student should say the sound as he or she writes the letter.
Directions: Have students trace and copy the letter ‘c’. The motion can be described as 1, most of a circle to the left. Student should say the sound as he or she writes the letter.

Directions: Have students trace and copy the letter ‘g’. The motion can be described as 1. circle to the left; 2. fish hook ending below the bottom line. Student should say the sound as he or she writes the letter.
Directions: Have students trace and copy the letters and words. The motion for 'i' can be described as:
1. short line down (lift); 2. dot on top. Student should say the sound as he or she writes the letter.

Lowercase Letter Formation—Games

**Tic-Tac-Toe**

Use the template provided, or draw your own, for students to play Tic-Tac-Toe using pictures of target letter sounds instead of the traditional X and O. Students may use both the same target picture of a letter sound and draw it in different colors, or students may use two different target pictures of letter sounds.

To promote the meaning link between letter formations as a representation of speech sounds, encourage students to say the lowercase letter formation chant or the letter sound each time they draw a lowercase letter formation while playing Tic-Tac-Toe.
Name: ________________________________

Tic-Tac-Toe Board

Directions: Students play Tic-Tac-Toe using pictures of target letter sounds instead of the traditional X & O. (See directions under Lowercase Letter Formation—Games.)
Letter Hunt

Finding familiar pictures of target letter sounds reinforces letter formation knowledge. Use the following activities to have students hunt for taught letter formations.

- Alphabet Mural 1 and 2. Mural 2 provides a greater challenge by mixing familiar letter formations with unfamiliar letter formations.

- Read Around the Room: Invite students to find target letter formations in text around the room. Wearing funny glasses and/or using a fun pointer makes this activity even more engaging!
Directions: Ask students to circle the pictures of certain letter sounds learned in Unit 3. (See directions under Lowercase Letter Formation—Games.)
Directions: Ask students to circle the pictures of the letter sounds learned in Unit 3. (See directions under Lowercase Letter Formation—Games.)
Lowercase Letter Formation—Fine Motor Activities

Variations for Practicing

• Draw in trays of sand, rice, or shaving cream.
• Draw shapes on vertical surfaces: paper taped to the wall or easel, dry erase board, or chalkboard. (A damp sponge can be used for drawing practice on a chalkboard.)
• Put hair gel with food coloring or glitter in a sandwich bag. Force all the air out and seal tightly. Place the bag on a flat surface and practice letters. Squish the gel flat again to use repeatedly.
• Draw with doodle programs on touch screen technologies.

Other Fine Motor Activity Suggestions

• Building with blocks
• Pouring water from a pitcher to a cup
• Cutting and pasting
• Hole punching
• Stringing beads
• Lacing hole-punched cards
• Making shapes with playdough
• Playing with squirt bottles
• Screwing and unscrewing lids
• Popping bubble wrap using the thumb and pointer finger
• Using a turkey baster or nasal aspirator to blow ping pong balls back and forth
• Using tongs or tweezers to pick up small objects (e.g., place colored buttons or stones on matching colored papers or in matching colored containers, count marshmallows or pom-poms into ice cube trays)
• Adding and removing clothespins to fill the edge of paper, a box, a ruler, etc. or hanging items on a line
• Putting beans in a container with an appropriately sized slot
• Threading pipe cleaners through the holes of a colander
• Turning over buttons spread on the floor or table
• Using eye droppers with water and food coloring to decorate coffee filters
Lowercase Letter Formation—Progress Monitoring

For Units 1 and 2 of the Assessment and Remediation Guide, progress monitoring was facilitated by charting general performance levels and scores on unassisted items from the Guided Practice portion of the lessons. For Unit 3 and beyond, progress monitoring continues to be a form of assessment that is integrated into instruction. The resources create a systematic record of student mastery of skills, facilitating documentation and evaluation of student Response to Intervention (RtI). We recommend teachers use the progress monitoring resources provided:

• within the Guided Practice section of the lesson plans. The resources are designed to parallel instructional tasks, allowing for brief, seamless integration. The intention is not to burden instructional time with additional assessments.
• only when, based on observation of instructional performance, students appear to be ready for a comprehensive check of the target skills for this section of Unit 3. Set schedules for progress monitoring assessments tend to result in their overuse. The resources are intended to serve as confirmation and meaningful record of student progress, as opposed to a collection of numbers.
• to inform instruction! If student mastery of the target skills is confirmed by a progress monitoring assessment, then teachers can be confident in the decision to move students forward. If students do not achieve the goal scores for a progress monitoring assessment, analysis of errors will indicate areas of continued instructional need.

Directions

Preparation: Copy the lowercase letter formation assessment corresponding to the progress monitoring assessment you have selected. The assessment is two pages.

• Distribute Lowercase Letter Formation Progress Monitoring Worksheet (1–4).
• Provide each student with a small piece of crayon.
• Model with the sample item (heart).
• Tell students to copy each stroke in the box provided. (Remind them to continue to the second page.)
• Scoring: Designate how well matched student attempts are to a target letter formation using Not Yet Progressing (NYP), Progressing (P), and Ready (R).

  • NYP: The letter formation has some directionality and appropriate shape; however, the student attempt would not be recognizable without the reference letter.

  • P: The letter formation is recognizable and contains all essential features (e.g., number of lines, curves, points, intersections); however, some lines may not touch or close, extra strokes may be used in the attempt, and it may lack symmetry.

  • R: The letter formation reflects appropriate proportions, symmetry, closures, etc.; however, lines may still be shaky.

• Goal: Achieve Ready on all lowercase letter formations.

• Scores of Progressing or Ready indicate additional re-teaching and reinforcement is required from Assessment and Remediation Guide Unit 3 Section III, Writing: Lowercase Letter Formation.
Progress Monitoring—Letter Formation

Each column provides a space for recording the date and number of the progress monitoring assessment given, as well as scores for the target letter formations (NYP, P, or R).

ACKNOWLEDGMENTS

These materials are the result of the work, advice, and encouragement of numerous individuals over many years. Some of those singled out here already know the depth of our gratitude; others may be surprised to find themselves thanked publicly for help they gave quietly and generously for the sake of the enterprise alone. To helpers named and unnamed we are deeply grateful.

CONTRIBUTORS TO EARLIER VERSIONS OF THESE MATERIALS

We would like to extend special recognition to Program Directors Matthew Davis and Souzanne Wright who were instrumental to the early development of this program.

SCHOOLS

We are truly grateful to the teachers, students, and administrators of the following schools for their willingness to field test these materials and for their invaluable advice: Capitol View Elementary, Challenge Foundation Academy (IN), Community Academy Public Charter School, Lake Lure Classical Academy, Lepanto Elementary School, New Holland Core Knowledge Academy, Paramount School of Excellence, Pioneer Challenge Foundation Academy, New York City PS 26R (The Carteret School), PS 30X (Wilton School), PS 50X (Clara Barton School), PS 96Q, PS 102X (Joseph O. Loretan), PS 104Q (The Bays Water), PS 214K (Michael Friedsam), PS 223Q (Lyndon B. Johnson School), PS 308K (Clara Cardwell), PS 333Q (Goldie Maple Academy), Sequoyah Elementary School, South Shore Charter Public School, Spartanburg Charter School, Steed Elementary School, Thomas Jefferson Classical Academy, Three Oaks Elementary; West Manor Elementary.

And a special thanks to the CKLA Pilot Coordinators Anita Henderson, Yasmin Lugo-Hernandez, and Susan Smith, whose suggestions and day-to-day support to teachers using these materials in their classrooms was critical.
